## Iowa Man Loses His Contentions That Iowa Laws Vi- olate The Fourteenth Amendment In Giving Juries Power As To Murder Degrees.

[BY ASSOCIATED PRESS.]  
Washington, D. C., March 23.—The supreme court of the United States today held that the Minnesota railroad law is unconstitutional because of the enormous penalties imposed by it.

Thomas Loses  
The case of Charles Thomas, under a sentence of life imprisonment in the Iowa penitentiary on the charge of murdering Mahel Schofield in Des Moines, which was a notorious case some years ago, was practically decided by the supreme court today against Thomas by the dismissal of the case.  
He brought the case to the supreme court on the plea that the Iowa state statute giving a jury discretion in the matter of determining the degree of the crime was a violation of the 14th amendment to the constitution of the United States in that it abridged his privileges.

# ROCK RIVER CLAIMS ANOTHER CANOEIST

## Young Man Drowns at Beloit—Further Attempts to Find Body of Dennis Griswold Fail.

[SPECIAL TO THE GAZETTE.]  
Beloit, Wis., March 23.—Rock river claimed another canoeist yesterday afternoon. The victim was Harry A. Gorder, a young man of about thirty years. He and Howard Clark were enjoying a trip on the stream when Gorder, feeling very cold, reached for the paddle which Clark was using. The man captured the light craft and both occupants were thrown into the swiftly moving current. Despite this fact both obtained a hold of the upturned boat. After uselessly holding onto the canoe for a time, Clark said: "We'll get chilled through this way; we'd better strike out for shore." Accordingly both deserted the boat and began swimming. Halfway to shore Gorder said, "I'm all in," and with that, sank. Clark was just able to reach shore and there fainted. People across the river saw the tragedy and came with a heavy rowboat. They revived Clark and recovered the body of Gorder, but all efforts to resuscitate the man were futile.  
1,000 Watch Diver at Roscoe  
One thousand people gathered at Roscoe yesterday to watch a diver search for the body of Miss Beulah Griswold, the Roscoe young lady who drowned two weeks ago while canoeing with her brother. The diver worked three hours, but failed to locate the corpse. He worked at the direction of a diver from the town of Beloit. The body was said to be placed near the shore, but not the body. It has been learned that the location of this tree has been known for some time, having been found in summer past by swimmers, and it is not likely that the directions of the diver will be further followed.

# PAINTINGS WORTH A THOUSAND DOLLARS

## And Secured Through Efforts of Forty Ladies, Form Splendid Nucleus for Janesville Art Gallery.

From the standpoint of attendance and appreciation, the tenth exhibition of the Thurber paintings under the auspices of the Janesville Art League which came to a close Saturday evening, was the most successful ever given here and indicated an awakened interest in the things which the ladies have been so earnestly striving for. The receipts, together with the fund on hand, enabled them to add to the permanent collection in Woodman hall, the handsome pastoral of the "Shepherdess and Her Flock" from the brush of the Belgian, Franz de Meul—on an oil painting listed at \$450. This, together with the "Forest of Fontainebleau" study by the Frenchman, Jeanne, and "After the Storm" by the Dutch painter, Leunbeers, both purchased by the Art League within the past few years, gives the city as the nucleus for a permanent art gallery, a collection valued at over \$1,000. The ladies have been allowed a generous commission on all pictures sold as well as a large share of the admission fees. While the "Old Timbered Houses at Chester," a water-color by B. McGilver which was sold to Mrs. E. A. Capelle, was the only one of the more important paintings disposed of on this occasion, a large number of less expensive paintings and reproductions, including two of the three Arlen Edwards print color mezzotints, are to remain in the city. Before departing yesterday, Seymour J. Thurber expressed himself highly gratified over the reception accorded him here and voiced a hope that the next picture secured by the Art League might be from the brush of an American artist.

# ALLEGED GRAFTERS ARE ON TRIAL NOW

## Second Lot of Defendants in the Cap- itol Conspiracy Cases Called to Trial Today.

[SPECIAL TO THE GAZETTE.]  
Harrisburg, Pa., March 23.—The second lot of defendants in the capitol conspiracy cases were called to trial today. The present defendants are William P. Snyder, former state auditor; William L. Mathews, former state treasurer; James M. Shumaker, former superintendent of the board of public grounds and buildings; Representative H. Bird Cassel and Joseph M. Hutson, the architect of the capitol, who made application for a separate trial.  
Three of the present defendants, with John H. Sanderson, the contractor, were convicted several weeks ago on several of the charges made against him, and when the present cases are disposed of still other defendants will be placed on trial.  
The prosecution of the alleged grafts was the outcome of the political upheaval in Pennsylvania in 1905 which resulted in the election of William H. Borah, democrat, as state treasurer in the fall of that year. Borah threw open the books of the state treasurer and showed that the cost of building the capitol was more than three times the amount of the contract. The case was laid before the attorney general and indictments were found against fourteen persons. In addition to the graft in connection with the construction of the state capitol that there are grafts amounting to nearly \$5,000,000 in the furnishings.

# FEDERATION HAS A COOPERATIVE PLAN

## Chicago Federation of Labor Consid- ering Co-operative Grocery Stores.

[SPECIAL TO THE GAZETTE.]  
Chicago, March 23.—If plans now about completed by the Chicago Federation of Labor will be successful, a co-operative store for the distribution of products direct from the farmer to the consumer will soon be established in every section of this city. The plans contemplate the purchase of a large number of grocery stores in different parts of Chicago, retaining the present proprietors as managers at a fixed salary, and a percentage on all sales over a certain amount each month.  
A central warehouse is to be established to which the goods will be shipped by the farmers and from there they will be distributed to the various branch houses. The goods will be sold at the prevailing market prices, but purchasers will be entitled each month to a rebate, according to the amount purchased and the profits made.  
The project will be managed by the International Equity Union, composed of the organized farmers and the local labor bodies. The new organization has already received its charter of incorporation and is prepared to issue charters to the various local branches.

# SUPERIOR READY TO BEGIN THE WORK OF REBUILDING

## Girl Who Started Awful Fire Last Winter, Starts Suit For Negligence On Part Of Owners.

[SPECIAL TO THE GAZETTE.]  
Superior, Wis., March 23.—Plans for the Soo's elevator and for its proposed coal dock on Conners Point have been prepared and are on file with the state railroad commission. It is expected that just as soon as an announcement is made as to the approval or disapproval by the commission of the plans of the road for getting into the city the work will be ordered gone ahead with. The elevator is to be built, it is said by the officials, in time for the handling of the crop this fall. The elevator will be a working house of small capacity with great concrete structures on either side of it for the storage of grain. It will in addition be so built that it may be added to for increased capacity at quick notice and without interfering with the operating of the plant. The authorities say that it will be of the modern kind and of large capacity. Further plans than these the Soo will not give out but the officials state that they have plans for other docks, warehouses and freight sheds on the Point.  
Argument on the application of the Soo railroad for approval of its plans for entering Superior will be made before the state railroad commission on Tuesday, March 25. The attorneys here have received copies of the evidence that was submitted before the commission a few weeks ago and are preparing an argument for next Tuesday. The question is principally that of the method of crossing the various tracks of the other roads in the county and city. Opposed to the underground crossings the Soo claims that it would be compelled to have a trench nearly five miles in length in order to get into the city. The officials maintain that this would cost more money than the railroad commission would be warranted in asking it to spend under the circumstances. It is also claimed that part of the sewer system of the city would be destroyed.  
Starts Suit.  
Miss Nida Johanson, the young woman who stepped on a match that started the big Webster Chair Manufacturing fire on Aug. 30, last, has commenced suit in superior court for personal injury damages to the extent of \$30,000. Miss Johanson alleges that the company was negligent in allowing the match to be on the floor and claims that a ruling should be made whereby the men will be prohibited from carrying matches into the factory. The plaintiff claims that she is disfigured for life. She also claims that she is incapacitated for work. Miss Johanson was badly burned about her face and body by the flames and for several weeks was cared for at St. Mary's hospital. The fire occurred in the finishing room of the factory about ten minutes after work for the day had been ended. Miss Johanson was washing-up preparatory to going home when she stepped on the match and almost immediately the flames that had gathered in the room since the closing of the windows ignited and one of the largest conflagrations that has occurred in Superior for some time followed. Much interest is attached to the suit because of the circumstances connected with it. Attorney Frank A. Rose has been retained by the woman and Solin T. Perrin and H. V. Gard for the factory people. No answers have as yet been filed.

## FORTY YEARS AGO

Janesville Gazette, March 23, 1868.—How long it seems to us that there was the unusual amount of rowdiness on the streets last evening. Young men gathered at the corners, and shouted the curses of the masses by with obscenity and profanity, and were loud and boisterous in their talk. If this is tolerable for weeks day evenings it is certainly intolerable for Sabbath evenings and the nuisance ought to be abated. It is decidedly unpleasant, particularly for ladies to run the loaves' gauntlet. Is there no remedy?

New York, March 23.—Judge Barnard appointed John B. Hoskins referee in the matter of the answers to the interrogatories in the proceedings against Messrs. Seldmore, Lane & Davis, despite remonstrances of the counsel for the defendants, who aver the suit was instituted in the interest of Vanderbilt Road with the design of creating a great railroad monopoly.

The civil war in Japan has ended, the Teyoon having been defeated. The Mikado promises to observe all treaties with foreign powers.

New York, March 23.—The Herald's special says telegrams from Cuba, St. Domingo, St. Thomas, and Porto Rico state that three strong shocks of an earthquake have been felt at St. Thomas and business was paralyzed. General Boez had not yet arrived in St. Domingo. The cholera had disappeared. Awful shocks of earthquake have been felt at Porto Rico and the inhabitants of that port are fleeing to the ships for safety.

Washington, March 23.—A number of bills of no general interest were introduced and referred to the Senate. After prayer a resolution was adopted providing for printing copies of the proceedings of impeachment for the use of the Senate, chief justice and counsel.

Hills introduced making appropriation for the expenses of the trial, to reorganize the State Department and reduce its expenses and donating capital ordinance for a monument for General Sedgwick and to reorganize United States Circuit Court, were all referred.

TELL OF STRANGE SHIPWRECK.

Crew of Abandoned Schooner Relate Terrible Experience.

New York, Mar. 23.—The story of a strange shipwreck on the high seas and a narrow escape from death was told by Capt. Griffin and the crew of the schooner "Baltimore" which was wrecked on the coast of the British Isles.

The schooner sailed from George, S. C., on February 14 for New Haven, Conn., with a cargo of lumber. The next day the schooner ran into a heavy gale and began to leak. The crew manned the pumps but the schooner filled rapidly and suddenly turned over on her port side. Capt. Griffin and the crew scrambled up on the starboard side of the hull and inched themselves fast. Swept by the waves the men thus remained for three hours when the schooner suddenly righted itself. Cutting themselves free from the lashings, the crew succeeded in reaching the schooner's deck.

In a week's time the men faced death from starvation. On February 22, when hope was almost lost, the British steamer "Brynhild," bound from Galveston for Belfast, was sighted. The "Brynhild" hove down upon the waterlogged schooner and took off her sailors.

Three Distinct Shocks Are Felt in Imperial Valley.

Imperial, Cal., Mar. 23.—Three distinct earthquake shocks were felt (through Imperial valley Sunday morning. No damage is reported from the various towns, other than the breaking of a few dishes at Brawley and El Centro.

The first shock occurred three minutes before six o'clock and was the most severe of the three. The second followed in five minutes and the third in fifteen minutes, each quake lessening in severity. At Brawley the people rushed out of their homes.

KING MAY LOSE HIS ARM.

Wound Received by Manuel of Portugal Not Healing.

Madrid, Mar. 23.—El Mundo says that it learns on good authority that the wound Prince Manuel—now king of Portugal—received in the arm on February 1, when King Carlos and the crown prince were assassinated, has not healed, and has recently become very much worse. The attending physicians, says the paper, declare that amputation is imperative.

## "What Do You Want When You Choose a Dentist?"

The very first essential is "Good work."  
"Any old thing" won't do when it comes to work in your mouth. Another desideratum is Painless work.  
A careful, conscientious, painstaking operator like Dr. Richards uses every possible means at hand to avoid causing you pain.  
A third feature which cuts quite a figure is "Reasonable Prices."  
They say you can pay \$5,000 for an automobile, or you can get a good serviceable machine for \$1,000 if you wish. Some makers get far more than others for their output.  
It is the same in Dentistry.  
Some dentists prefer to do a small practice at large prices to each individual.  
Others like Dr. Richards, prefer to do a large practice at a smaller fee from each patient.  
Dr. Richards has fixed up many a decayed tooth for 75c, and sent the patient away so satisfied in every way that he has sent all his family and friends for their work.  
Whereas he might have charged the man \$3.00 and never seen him again.  
Sum it up and you find it about this way—  
"Good work."  
"Painless work."  
"Reasonable Prices."

## INSTRUCTION TO COUNTY CLERKS

SECRETARY FREAR EXPLAINS THE ELECTION LAW.

## HOW NAMES WILL APPEAR

No Order Established With Reference to Judicial Candidates.

Secretary of State Frear has prepared a letter of instruction to county clerks advising them that the law requires names of persons on the official ballot to be arranged alphabetically with the exception of candidates for judicial positions, so that the clerks will arrange the names of judicial candidates to suit themselves, without regard to alphabetical order. The letter is as follows:

"With the certification of names of candidates for judicial positions and delegates to national conventions there is hereby enclosed blank sample ballot to add you in the preparation of ballots for your county. Section 91, Wisconsin statutes of 1898, provides for judicial elections. It does not require any particular arrangement for names of candidates upon the judicial ballot, leaving such details for the county clerk to determine.

Sec. 11-28 sub-division 10 of 1907 new election pamphlet (page 124) provides that names of candidates must be placed upon that ballot in alphabetical order. This explanation is made to meet many inquiries received by this department from county clerks and other individuals upon the method of preparing ballots and to advise you of the statutory provision governing the same."

Endeavors to Be Fair.  
The letter of instruction endeavors to be absolutely fair by leaving to county clerks the method of preparation of judicial ballots so far as concerns the arrangement of names. This department will not interfere with their action by any method of certification nor by furnishing sample ballots that might affect such arrangement one way or another.

The special importance attached to the alphabetical arrangement left by statute in the hands of the different clerks could have been avoided, if the legislature had authorized the secretary of state to provide for a rotation of names on all ballots certified. Such a bill was prepared in this office at the last session providing that names should be regularly rotated in the certificates to county clerks beginning with an alphabetical arrangement for Adams county, and dropping one name from the top as each of the counties next in alphabetical order was reached.

The bill passed the assembly and it had become a law, would have given every candidate an equal average position on the ballot among the 71 counties of the state.

When the primary election law was originally prepared the same subject was thoroughly discussed by those drafting the bill. In Minnesota the law there provided for a change of names on every certain number of ballots printed. This is unnecessary expense for candidates for state positions. The plan proposed at the last session is more economical and effective in affording fairness in arrangement of names. Delegates names will be arranged by county clerks alphabetically according to the law.

The attention of the readers of the Gazette is called to the importance of voting on the nomination for a candidate for city attorney tomorrow.

This office is doubtless the most important of all the contested positions. It is a matter of much interest and importance, one that can be in no way influenced by any other factor, and any interest adverse to the economical administration of the affairs of the city.

Our republican friends will do well to remember that whoever is nominated on their ticket will be largely dependent on republican votes for election and that there will be wisdom in selecting a man who commands the respect of the voters upon whom he will be dependent for election.

## MUST CLOSE BARS ALL DAY TUESDAY

City Marshal Appleby Calls Saloon-keepers' Attention to the Order.

Tuesday being primary day, according to the state law, all saloons and bars in the city must be closed and remain shut from six A. M. until seven P. M., the time the polls are open. City Marshal Appleby issues the following order:

"All saloons and bars must be closed tomorrow from six A. M. until seven P. M., under the state law governing saloons and bars on primary days."

"W. H. APPLEBY,  
"City Marshal."

## TWO TAKEN UP FOR VIOLATING LAWS

Charged With Selling Liquor on Sunday—One Pleads Guilty—The Other to Have a Hearing.

As a result of alleged violations of the Sunday closing law, William Leitz, who conducts a saloon at No. 6 River street, and Chas. W. Wileman, who conducts the Riverside Hotel, were taken to court this morning on complaint of City Marshal Appleby. Chas. Wileman pleaded guilty to the charge and paid a fine and costs amounting to \$27.50, while Mr. Leitz pleaded not guilty and his hearing was set for Friday morning at ten. Several other bars were closely watched yesterday and it is rumored that other violations of the law will be arraigned as soon as sufficient evidence is secured.

## START AT WORK ON PRELIMINARY WORK

Joseph Ellis, Engineer for Proposed Interurban, Ready to Start Operations Now.

Joseph Ellis of Channahon, engineer in charge of the survey of the proposed Janesville-Madison Interurban, will begin his active work tomorrow by making a trip from Janesville to Madison on foot closely following the proposed route of the line. It will take him several days to complete his trip and he will then be ready for the survey proper, which will start in about ten days. H. H. Ziegler of Columbus and William Johnson of the same city, who are working on the project, left this morning for Channahon, but both expect to return in a week to make their headquarters here during the progress of the work. Thus far Mr. Ellis has no definite opinion as to how the survey will run, but expects to be ready for a definite report by the end of the week. Before leaving this morning Mr. Ziegler said: "We shall go ahead with the work from now on as fast as possible. It will be some time yet before we will make an application for a franchise from the state railway commission, but once the work is begun it will be rushed. Mr. Ellis will remain in Janesville until the work is finished and Mr. Johnson and myself as well as others of the company will be here the major part of the summer."

## Reasons Why H. L. Maxfield Should be Chosen as City Attorney.

Because he is a man whose honesty and high professional purpose has gained for him the confidence of all with whom he has come in contact, because his conscientious endeavor during the last two years in behalf of the taxpayers entitles him to their endorsement, because the experience he has gained in the office increases his efficiency, thus giving the taxpayers the benefit of skilled service, because there are many important matters to be adjusted during the next two years with which the present incumbent is already familiar and can handle such matters with less expense to the city than a new man. Because it is customary to give an officer a second elective term, at least, when his character and ability are unquestioned.

In short, Mr. Maxfield has proven himself a careful, conscientious and able public officer and needs his right to succeed himself upon that fact alone, and his only plea for the future is that he will conduct the office with an eye single to the interests of the body corporate and with the same fidelity he would devote to the cause of an individual client.

## MAXFIELD ENDORSED BY COUNCIL

We, the undersigned members of the common council of the city of Janesville, hereby endorse the administration of our city attorney, Harry L. Maxfield, and urge and request the voters of the city to support him tomorrow for the office of city attorney, believing it to be for the best interest of our taxpayers.

# SENATOR BRYAN OF FLORIDA DIES

YOUNGEST MEMBER OF THE UPPER HOUSE PASSES AWAY.

## TYPHOID FEVER IS FATAL

Decedent Succeded Stephen R. Mallory Only 73 Days Ago—Gov. Guild of Massachusetts in Mourning.

Washington, Mar. 23.—United States Senator William James Bryan of Florida died at the Providence hospital at 8:30 o'clock Sunday morning of typhoid fever. It was only 73 days since he took his seat as the successor of the late Senator Stephen R. Mallory, who died December 23, and 33 days of that time was spent in his fight against disease.

Several times during Mr. Bryan's illness his friends despaired of his recovery, but as late as Saturday night the report was given out that his condition had taken a turn for the better. His death Sunday therefore came as a surprise and a distinct shock.

In Mr. Bryan the senate loses the seventh member by death since the adjournment of the fifty-ninth congress on March 4, a year ago. There were the two late senators from Alabama, Mr. Morgan and Mr. Pettus; Mr. Mallory of Florida, Mr. Lathrop of South Carolina, Mr. Proctor of Vermont, Mr. Whyte of Maryland and Mr. Bryan. Curiously the last two were the oldest and youngest members of the body. Mr. Whyte was 84 years old and Mr. Bryan less than 33.

Gave Promise in the Senate. Although Mr. Bryan was in the senate too short a time to impress his individuality on legislation or to take a

WILLIAM JAMES BRYAN prominent part in the consideration of matters in committee, it is conceded that had he lived he would have become a forceful part of the minority.

Mr. Bryan was born in Orange county, Florida, October 10, 1876. He attended the public schools of his state and Emory college, Georgia, graduating from the latter institution in 1899. Three years later he was graduated from Washington and Lee university and in 1899 began the practice of law in Jacksonville, Fla. Until a short time before his appointment to succeed Mr. Mallory in the senate he had served as solicitor of the Duval county criminal court. He was married to Miss Janet Allan of Lexington, Va.

The body of Senator Bryan, accompanied by a committee from the senate, leaves here at nine o'clock Monday morning over the Southern railway for Jacksonville, where internment will be made on Wednesday.

# LITTLEFIELD TO LEAVE CONGRESS

PROMINENT REPRESENTATIVE FROM MAINE RESIGNS SEAT.

## HIS ACTION A SURPRISE

Tells Chairman of Congressional Committee He Must Resume Practice of Law for Family's Sake.

Rockland, Me., Mar. 23.—A sensation was caused in political circles here Sunday by the receipt by Gov. William T. Cobb of a letter from Congressman Charles E. Littlefield, tendering his resignation as a member of congress, to take effect on September 30 next.

In the same mail was a communication to the chairman of the Second district Republican congressional committee from Mr. Littlefield, in which the latter gave as the reason for his resignation, his desire to resume his law practice, which in a large degree he has been compelled to abandon because of his congressional duties.

The resignation came as a great surprise to Gov. Cobb, and to the congressman's friends in this district, and was received with much regret.

### Text of the Letters.

The letters were as follows: "Washington, Mar. 20, 1908.—Hon. William T. Cobb, governor of the state of Maine.—Dear Sir: I hereby tender my resignation as a member of the Sixtieth congress from the Second district of Maine, to take effect on and after the thirtieth of September, 1908. I am, sir, with the highest regard, your obedient servant, Charles E. Littlefield."

"Washington, Mar. 20, 1908.—Fred W. Wright, chairman Second district Republican congressional committee.—Dear Sir: I have been a member of the house of representatives for nearly nine years. In order to properly discharge my congressional duties I have been obliged to practically abandon my law practice. The result has been what is to me a large financial loss. I now feel constrained, from a sense of duty to my family to resume the general practice of the profession.

"In withdrawing from congress I wish to express my most profound thanks to my friends, both in and out of the district, who have so cheerfully, generously, loyally and effectively supported me in the past, through good report and through evil report. I felt that I ought to make my resignation at this time in order to make it unnecessary for the district to be subjected to the expense and trouble of a special convention and election for the election of my successor for the unexpired term. Charles E. Littlefield."

### Distinct Loss to the State.

Gov. Cobb in speaking of Mr. Littlefield's resignation, said: "Congressman Littlefield's resignation comes to me as a great surprise, for I had received absolutely no intimation of it before. I have always been a great admirer of Mr. Littlefield. I consider it to be a distinct loss to the state when men of his ability and type leave the service. He has helped to keep Maine in the forefront of national affairs, and has contributed that degree of statehood which has made Maine delegations famous for so many years."

### H. M. Sewall Seeks His Place.

Bath, Me., Mar. 23.—Harold M. Sewall of this city announced himself Sunday night as a candidate for the Republican nomination for representative in congress from the Second Maine district to succeed Congressman Littlefield. Mr. Sewall formerly was United States minister to Hawaii and, acting in that capacity, received the transfer of the sovereignty of the islands to the United States in 1893. He was previously consul general to Samoa. He has served in both branches of the Maine legislature.

### Will Practice in New York.

Washington, Mar. 23.—Representative Littlefield's resignation will take effect September 30 next. Mr. Littlefield stated Sunday night that his resignation would be placed in the hands of Speaker Cannon Monday. It is understood that he will engage in the practice of law in New York city with his son, C. W. Littlefield.

Fort River, Mass., Mar. 23.—With a crucifix clamped in her right hand and a rosary hanging from her arm, Mrs. Florida Torren, aged 25 years, and her four-year-old daughter, Mary, and two-month-old boy, Joseph, were found dead in the kitchen of their home early Sunday by the woman's husband, Joseph Torren. The coroner said, after an examination, that the woman had killed herself and the two children with illuminating gas. Two gas jets and the coals of the gas stove in the room were turned on. Mrs. Torren had been in good health, but it is thought that family cares had unbalanced her mind.

# OVERLIN CARTER WINS LAST SUIT

FORMER ARMY MAN IS AWARDED \$45,000 BY COURT.

## THAT MUCH IS UNTAINTED

Government Must Pay All Costs of This and Other Cases, Says Judge Kohlsaat at Chicago.

Chicago, Mar. 23.—Oberlin M. Carter, former captain in the United States engineer corps, after fighting for years in the courts for vindication, has gained a measure of victory over the federal government.

Judge Kohlsaat, in the United States circuit court, entered the final decree in the case. Though the former army officer received only \$15,000 of the funds held in trust by the government, all the costs of this and other suits against him are taxed against the government. Practically all the findings are in favor of Carter. Judge Kohlsaat ruled that the \$15,000 was "with-out taint."

The total amount of funds attached by the federal authorities some years ago was about \$400,000. Most of this is said to have been received by Carter from his father-in-law, Robert F. Westcott, deceased, and is supposed to have been Westcott's share of the litigation proceeds of Greene and Gaynor's contracts with the government.

### Funds Tainted, But Carter Not.

Judge Kohlsaat some weeks ago held that a large part of these funds received by Carter from his father-in-law were "tainted," and that while the former captain may not have known of the secret partnership between Westcott and Greene and Gaynor, yet "in the eyes of the law, he was supposed to have had knowledge that the contractors in the Savannah district were reaping abnormal profits from their work."

The court held also that "Carter's course in the premises was not necessarily an abuse of the discretion vested in him, nor seriously inconsistent with his claim that he discharged his duty to the government, and that, limited, as thus stated, under the rule of evidence obtaining in such cases, the government had failed to maintain its case."

### Government Stands the Brunt.

In his final decree, refusing to charge Carter with the money spent in attorney's fees in defending himself, Judge Kohlsaat holds that all the expenses of suits against Carter in Chicago, New York, Savannah and other places, except possibly a small percent, to be determined later, are to be paid by the government. This amount

## What Grandmother Missed

When our New England grandmothers baked beans it was a two days' undertaking. The first day the beans were soaked and parboiled, the next day the baking was done and the beans were delicious. But there were some things grandmother missed that modern science includes.

# HEINZ Baked Beans

Three kinds: With Tomato Sauce; Plain Pork and Beans (Boston Style); Vegetarian—without Pork.

are baked on the same good old baking principles, but with vastly better materials and appliances, under improved conditions never dreamed of by grandmother.

The goodness of HEINZ Baked Beans begins months before they are baked. They are planted and grown for HEINZ, simply to get better beans than the market affords. They are soaked and parboiled, and finally baked and baked—brown toasty richness, leaving the oven to go piping hot into the HEINZ Improved Tin and sealed without the use of solder.

Open and eat them, hot or cold, and enjoy a "meaty," "beany" richness equal to any grandmother ever knew.

## CATARRH A SERIOUS FAR-REACHING BLOOD DISORDER

Even in its early stages Catarrh is almost intolerable, caused by the stuffy feeling in the nose, the buzzing noises in the ears, the continual "hawking and spitting", difficult breathing, etc. But when the blood becomes thoroughly polluted from the catarrhal matter, the inflammation extends to the bronchial tubes, causing hoarseness, and often an aggravating cough; the stomach is affected, resulting in dyspepsia, loss of appetite and strength, and gradually all the mucous membranes of the body become diseased and the system upset and deranged. Frequently the kidneys and bladder are attacked, and the constant passage of impure blood through the lungs, diseases these important members, and Catarrh terminates in Consumption. Catarrh is a deep-seated blood disease, and must be treated constitutionally, for it is beyond the reach of local treatment. S. S. S. cures Catarrh by cleansing the blood of all the impure catarrhal matter and at the same time building up the entire system. It goes down and attacks the disease at its head, in the circulation, and removes every trace of the impurity that is causing the trouble. Then as rich, pure blood circulates through the body, the inflamed membranes commence to heal, the mucous discharges grow less and finally cease, and all the disagreeable and disgusting symptoms of Catarrh disappear. S. S. S. has no equal as a cure for this disease. It refines and purifies the entire circulation and repairs the damage done by Catarrh. Special book on Catarrh and any medical advice free. The American Man and Woman. The men do seem terribly busy, though. I have not met one man who seemed thoroughly at ease. They appear to be always working, and I can see that your men are overworking themselves while your beautiful women are taking life nicely and getting out all there is in it. This is why they are so beautiful.—Lady Buff Gordon.

Earthworms That Plant Forests. That earthworms as well as squirrels may aid the forester is the novel suggestion of an American naturalist. Dry maple seeds are drawn into worm burrows, where they sprout, and it is believed that some of them must survive in favorably moist seasons.

## MAN THAT WOMEN LIKE BEST.

Writer Asserts That There Can Be No Special Brand.

In the imagination of every woman a creature exists whom she fancies would be unto her a god if she met him; in the imagination of every man there is a woman like nobody on earth, in heaven above, or in the waters under the earth. But no woman ever shows favor to any particular type of man. If woman really liked this or that specimen of masculine humanity above all others, should we ever see the strangely assorted marriages that we do? Individually all women have their ideals, but speaking generally, there is no special brand of man that can be said to appeal to woman. It is sheer nonsense to say definitely that athletes, or courtiers, or time cats, or dreamers are respectively most pleasing to women. But even if it could be said with authority this or that kind of man is what every woman likes, is it to be supposed for a moment that every male creature would proceed to model himself on the approved pattern? It would be a great pity if such a state of things could be brought about. Women do not want a stereotyped mold for each of the sexes, and women would lose grand opportunities for laughter if all our men were glib, well-mannered, strong and masterful, or were amiable domestic poets. To be able to poke fun at this or that type is part of the joke of life—to a woman.—Chicago American.

DELIVERIES ON MODEL "S" ROADSTERS BEGAN MARCH 15.

## THE LATEST FORD RUNABOUT

MODEL "S" ROADSTER, \$750.00. Four Cylinders, shaft drive, 18 H. P., 30-inch wheels, rumble seat, enclosed fenders, lamps, horn, storage battery, mechanical oiler, full set of tools.

The Model "S" Roadster is Henry Ford's latest creation and will fill a demand for a three passenger car which heretofore has only been met in the higher priced car.

Henry Ford's rule is to manufacture in large quantities and sell at a fair profit. This car is no exception and its price is a fair price for a car of this type, so don't be deceived and pay several hundred dollars more for some other car which, at the best, is only a copy of the Ford. Ford originals—others follow, and so remain about two years behind.

The "woods" are full of "nearby" Fords, for ever since Ford scored his great hit in 1906 with his now famous four cylinder runabout, other manufacturers, jealous of his success, have tried to imitate and follow him, and "follow" is the best that any of them have been able to do. Two cylinder cars, four cylinder cars, shaft drive cars, chain cars, red cars, green cars, and cars of all descriptions have been offered to the public and guaranteed "to be just as good as a Ford," but the buyer CAN SEE NO REAL GOOD REASON for paying more money for imitation articles, especially when these imitations are only at their best EXPERIMENTS and as "the wise old owl" keep right on buying Ford cars and get "the best automobile values in the world."

Deliveries on Model "S" Roadsters started March 15th, and continue right along.
